Choice Dahlias

N. A. MILLER

2334 S.E. 66th Ave., Portland, Ore.

GREETINGS TO MY DAHLIA FRIENDS

It gives me pleasure to present you with my 1937 catalog and again offer you many choice Dahlias at very reasonable prices.

I have discontinued Gladiolus for this season. But I expect to have to offer again next season a fine collection of the latest and finest varieties, which will be offered at a price that almost anyone can afford to pay.

While I do not claim to list all of the world's latest creations in Dahlias, I do aim to offer novelties and standard varieties of real merit, and to send out good quality roots and plants that will grow, bloom and please.

Thanking you for past favors and hope I may have the pleasure to receive your order again this year.

I am,

Yours very truly,

N. A. MILLER.

INFORMATION ABOUT MY GREEN GROWING DAHLIA PLANTS

These plants are propagated sprouts or base cuttings taken from healthy, vigorous Dahlia roots or clumps, that have been started early and forced by gentle heat. When the sprouts are of proper size they are taken off and rooted in sand benches, then potted in well prepared soil, and then grown on in protected frames until well established. When again they are moved to the outside into full sun, where they are hardened off, ready for shipping and planting.

By my method of handling and packing these plants the tender roots are never disturbed from the time the rooted cuttings are transplanted from the sand, until they are received by my customers.

If you have never grown Dahlias from green plants. I would suggest that you give them a trial, for if given immediate care upon arrival, and planted in a well prepared soil, and given good cultivation with plenty of moisture to keep them growing. They will produce equally as large and fine blooms as roots, and should also produce a nice clump of roots for future planting. These plants will be ready for shipment from May 1st to June 15th and will be packed to arrive in good condition anywhere in the U. S. A.

Cultural directions will be sent with each order.

SPECIAL NOTICE

On orders for green plants less than \$3.00—25c must be sent to cover special delivery charges. I will not guarantee safe arrival of green plants unless shipped special handling or special delivery. I will pay all the regular postage on plants and roots.

If for any cause your plants should arrive in a damaged condition, if you will please return the damaged or dead plants, at once (or within 24 hours after arrival) by mail in a envelope without any soil, I will replace the plant or plants on refund the money paid for them.

ORDER EARLY—While I have quite a large stock of most varieties offered, there are a few kinds like some of the novelties, of which I have only a limited supply although I am well equipped to grow plants, there will be a number of kinds that will be sold out early. It will be best to order now or soon after you receive this catalog, so you may get the kinds wanted. As orders are received, roots and plants will be reserved and sent at proper time for planting. Roots about April 15th or sooner if requested, plants anytime after May 1st to June 15th.

Everything will be securely packed to arrive in first class condition.

All orders will be sent with transportation charges prepaid, by parcel post or express.

Dahlia cultural directions will be sent with each order.

ABBREVIATIONS TO TYPES—C, Cactus; D, Decorative; P, Peony; Sh. Show; H. C., Hybrid Cactus; S. C., Semi-Cactus.
